

## **Attention Contractors!!**

### **Oregon ePermitting App Training in Seaside**

**Tuesday July 12<sup>th</sup> 9:00am – 10:00am**

**Seaside City Council Chambers**

**989 Broadway Seaside, Oregon**

Contractors are invited to join the City of Seaside, Clatsop County Building Departments and the Oregon Building Codes Division for an in-person training on the Oregon ePermitting App. The current Oregon Inspection Request app has been upgraded and renamed the Oregon ePermitting app. We have been adding and testing new tools and features on this app and with all of the upgrades it has moved past being just an inspection scheduling tool.

#### *The new and improved **Oregon ePermitting App:***

- Allows live video inspections between an inspector and the customer. Customers will be prompted to confirm their location before the video inspection begins.
- Allows customers, when requested, to upload pictures directly to their inspection for inspector review. Pictures are tagged with location data to allow for site location verification.
- Allows live messaging between the customer and the inspector that has been assigned the inspection without having to look up contact information.
- Delivers automatic notifications via the app when an inspection is resulted. Customers only have to search for the permit once to receive notifications. Customers will also receive notifications about future app updates and training opportunities.
- Provides all previous inspections and results in chronological order.
- Hosts instructional documents via a Document Hub that is accessed via a new Menu feature.
- Provides a direct link to the ePermitting Help Page with contact information and instructional how-to videos on using the app.
- Saves user contact information and autofill's that information when requesting an inspection.

The Oregon ePermitting App will be available for both iOS and Android devices on their respective App stores starting Tuesday July 5th, 2022. Virtual Trainings are also being provided and information can be found at [BuildingPermits.Oregon.Gov](https://BuildingPermits.Oregon.Gov)

For questions or assistance please contact Jerod Broadfoot, BCD ePermitting Training & Outreach Coordinator, via email at [Jerod.A.Broadfoot@dcbs.oregon.gov](mailto:Jerod.A.Broadfoot@dcbs.oregon.gov) or by phone at (541) 240-1256
